STARTED MILK DEPOT.

First Consignment of Ten Quarts Quickly Sold Out.

A milk depot was established just inside the fence line of the city playground at the foot of College street, Middletown, at 6 o'clock Wednesday night, and was an instant success. Ten quarts of fresh milk were sent from a farm in Portland and placed in large tanks of water to be cooled. The milk was sold at one cent a quart and served in antiseptic cups and the rate of sale was a quart. The children who bought the milk thought as much of the cups as they did of the milk and most of them took home to be preserved. The milk was sold out within the hour, those having it in charge were willing to give to the work. The sale of fresh milk will be conducted at the playground every night from 6 to 7 o'clock. The supply will be increased to meet the needs and if there is any left over any evening at 7 o'clock it will be sent to the Middlesex hospital.

Preparing for Disaster.

The New York state health department has sent a circular to physicians of that commonwealth announcing that it is prepared to receive and supply with supplies of tetanus antitoxin for use on four of July and the days immediately following. It is understood that at that time there will be a large number of persons in peril of death from one of the most agonizing and fatal diseases known to the human race. And this provision made in the hope of thus rescuing some of its victims.

It is also announced that the fire departments of all the cities and towns of the state are to observe the Fourth of July and that the various hospitals will have all their surgeons and ambulances on duty.

This is official recognition of the sad fact that the anniversary of the nation's birth is to be a day of disaster, of suffering and death, whereas all practicable means are being taken for alleviating its distress. This situation relates to every community in the country.

In the same view of things it seems as though a more rational way could be devised to commemorate the birthday of the republic. It should arouse higher thoughts than those which are expressed in meaningless noise and harrowing slaughter. The celebration should inculcate devotion to freedom and humanity, not savage exultation, ear splitting noises and killing and maiming. As now observed the glorious Fourth is unworthy of a free people.—Haverhill Gazette.

How Senators Rusticate.

As everyone in Massachusetts knows, Senator Lodge has a beautiful summer home at Nahant, on East Point Neck, one of the most picturesque spots along the entire Atlantic coast. The senator goes abroad for a pleasure trip about every other year, but this summer will find him at home, where he delights to read about over his extensive library. He will pass some time at Tuckernuck Island. Senator Lodge gets genuine pleasure out of horseback riding and has acquired a reputation as a cross country rider. His stables have several fine horses, among them a favorite hunter. Senator Lodge has of recent years become fond of automobilizing and has added a fine touring car to his collection of transportation facilities. He will not relinquish in any way his love for his horses and will use both horse and his touring car in traveling about over eastern Massachusetts this summer, in case he is able to get away from Washington before the month flies. The senator is also fond of his daily plunge in the surf near his home and is rated as a first class swimmer. He takes great pride in his home at Nahant, and likes to be out of doors there superintending the work and overseeing the improvements that have been made from time to time by experienced caretakers.

Senator Crane lives at Dalton and works hard there from day to day when he is sojourning in western Massachusetts, with the exception of the time he is able to spend at his summer home at Windsor, in the Berkshire hills. His Windsor country place is a beautiful spot where Senator and Mrs. Crane entertain a great deal, often having large house parties. At these times Senator Crane gets real delight out of the real-for-true baseball games he is able to pull off. He is a thorough baseball fan and has had a diamond constructed on his place, where some of the noted men of the United States have played and retired with sore joints and hands after most exciting contests. He usually manages to pull off at least two such games each season. Senator Crane is not at play much of the time, however; he works about as hard as if he didn't have a dollar in the world. He likes to work and thrives on it. He is also a lover of horses and keeps several good ones in his stable. He has added an automobile to his premises and gets rest and pleasure out of automobilizing when he is at home.

Three Meals for Six Cents.
The grand jury at Greenburg, Pa., the other day recommended that the amount paid to the sheriff for the daily food supply of prisoners in the jail be cut from 12 1/2 cents to 6 cents for each prisoner. The daily portion for each prisoner is one loaf of bread, two cups of coffee and one bowl of soup, with meat once a week. The grand jury says: "We believe the same can be served at a cost not to exceed six cents."

Degrees of Pain.
Pain is a general term. A pain which is local and of short duration is a twinge. If local and continuous, it is an ache. Agony, torment and the like, when not the mere hysteria of overstatement, are employed to designate the higher degrees of pain.

Money and Its Uses.
Money is the clothing of a gentleman; he may wear it well or ill. Some carry great quantities of it gracefully; some, with a stilted supply, present a decent appearance; very few will bear inspection who are absolutely stripped of it.—George Meredith.

The Talbot farm, in Lisbon, 1 mile from Taftville, about 100 acres. Rich soil. Sufficient wood for home use. Adapted to milk and vegetable farming. Has kept 34 cows and pair of horses. Large brook and old mill privilege. Apply to AMOS A. BROWNING or JOHN F. COUGHLIN. 312d

FOR SALE

There will be sold on the premises on Washington street in Norwich, Conn., the well known BUCKINGHAM MANSION with the large tract of land surrounding the residence (which has been platted into 25 building lots).

This property cost the original owner over \$100,000.

The mansion which contains 18 rooms, is in a good state of repair.

The house is constructed of brick with brown stone trim, heavy walls, windows tightly fitted, is easily warmed, and the person who purchases this property as a residence will have one of the finest places in Norwich, and can live in the house at an annual expense very little greater than if living in an ordinary wooden house which would cost twice as much to heat and maintain.

This building will not require painting once, where the ordinary house would have to be painted two or three times.

The property will be sold in seven parcels as follows:

No. 1. The residence with lot 104 feet front by 251 feet deep. This lot contains, beside the residence, the large green houses in a fair state of repair and ample land for garden, fruit trees, etc.

Lots on map numbered 2, 3 and 4.

No. 2. Lot number 1 on map, 55 feet front on Washington street by 153 feet deep.

No. 3. Lot number 21 on map, 53 feet front on Washington street, 150 feet deep.

No. 4. Lot number 32 on map, 55 feet front on Washington street by 148 feet deep.

No. 5. Will comprise the land lying in the rear of the plot sold with the mansion, and south of the new street. This consists of 15 building lots, numbered 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 and 19.

No. 6. Will be the section on the opposite side of the new proposed street as indicated on the map. Lots numbered 20, 21, 22, 23, 24, 25, 26, 27 and 28.

No. 7. Stable buildings, lots numbered 29 and 30.

If the same purchaser buys all three properties, it ought to be possible to sell 20 building lots and then have the mansion with stable and green houses left as a residence property at a very small cost.

The entire property will be sold without reserve to the highest bidder, and may go for less than one-quarter the price it would cost to replace it today.

TERMS: Ten per cent. of purchase price to be paid by certified check or cash at the time of sale. One-half the price may remain on mortgage at 4 1/2 per cent. The remaining 40 per cent. to be paid on delivery of Warranty Deed.

Sale positive, rain or shine.

N. TARRANT, 117 Main Street, Norwich, Auctioneer.

For maps or further information address the Auctioneer.

Pecious interested to inspect the property will find a caretaker on the premises at all times, and the house will be open for inspection on Sunday, July 4th, all day, also from 7 a. m. on Monday, July 5th, until the hour of sale on Tuesday.
